The Founding Fathers of the United States of America created the first free people in modern times. They wrote a new kind of Constitution which is now the oldest in existence. They built a new kind of commonwealth designed as a model for the whole human race. They believed it was thoroughly possible to create a new kind of civilization; giving freedom, equality, and justice to all. The Founders created a new cultural climate that gave wings to the human spirit. They built a free-enterprise culture to encourage industry and prosperity. They gave humanity the needed ingredients for a gigantic 5,000-year leap in which more progress has been made in the past 200 years than all of prior recorded human history. All of this came about because of 28 basic principles the Founders discovered, upon which all free nations must be built in order to succeed. This eBook includes the original index, footnotes, table of contents and page numbering from the printed format, and also new illustrations. Comprehensive study guide for the ASWB National Exam for the Advanced Generalist Social Work Exam Most of us believe that we will finally feel satisfied and content with our lives when we get the good news we have been waiting for, find a healthy relationship, or achieve one of our personal goals. However, this rarely happens. Good fortune is often followed by negative emotions that overtake us and result in destructive behaviors. "I don't deserve this," "this is too good to be true," or any number of harmful thought patterns prevent us from experiencing the joy and satisfaction we have earned. Sound familiar? This is what New York Times bestselling author Gay Hendricks calls the Upper Limit Problem, a negative emotional reaction that occurs when anything positive enters our lives. The Upper Limit Problem not only prevents happiness, but it actually stops us from achieving our goals. It is the ultimate life roadblock. In *The Big Leap*, Hendricks reveals a simple yet comprehensive program for overcoming this barrier to happiness and fulfillment, presented in a way that engages both the mind and heart. Working closely with more than one thousand extraordinary achievers in business and the arts—from rock stars to Fortune 500 executives—whose stories are featured in these pages, the book describes the four hidden fears that are at the root of the Upper Limit Problem. *The Big Leap* delivers a proven method for first identifying which of these four fears prevents us from reaching our personal upper limit, and then breaking through that limitation to achieve what Hendricks refers to as our Zone of Genius. Hendricks provides a clear path for achieving our true potential and attaining not only financial success but also success in love and life. For fans of *Three Times Lucky* and *The Penderwicks*, this endearing new classic spins together sparkling humor, sizzle-pop writing, and a sassy main character with an unforgettable voice. Gertie Reece Foy is 100% Not-From-Concentrate awesome. She has a daddy who works on an oil rig, a great-aunt who always finds the lowest prices at the Piggly Wiggly, and two loyal best friends. So when her absent mother decides to move away from their small town, Gertie sets out on her greatest mission yet: becoming the best fifth grader in the universe to show her mother exactly what she'll be leaving behind. There's just one problem: Seat-stealing new girl Mary Sue Spivey wants to be the best fifth grader, too. And there is simply not enough room at the top for the two of them. From debut author Kate Beasley, and with illustrations by Caldecott Honor artist Jillian Tamaki, comes a classic tale of hope and homecoming that will empty your heart, then fill it back up again--one laugh at a time. This book is designed to help students get LEAP assessment rehearsal along with standards aligned rigorous skills practice. It Includes: ?
