The Art of Hustling Sep 15 2022 Persuasiveness. Influence. A certain something that makes it impossible for people to say no. Call it what you will, some people have it. DJ Sbu certainly does. It's the quality that has helped him evolve from an ambitious boy growing up on Tembisa's rough streets to a DJ, an entrepreneur, an author, a philanthropist and a speaker who graces stages around the world. In *The Art of Hustling* Sbu shares the secrets to cultivating this irresistible quality. Using events that have shaped his own life, he reveals how a positive outlook, resilience, hard work and determination can help you win in every sphere. This inspiring read also acts as a practical handbook, showing you how to apply *The Art of Hustling* to become a winning salesperson. It is DJ Sbu's firm belief that, if you know how to sell, you will never go hungry. He also believes that this simple skill holds the key to solving Africa's considerable unemployment problem. His passion for youth development comes through loud and clear in this easy-to-read, easy-to-use handbook. Full of practical examples, sound advice and no-nonsense insights, it's a must-have for every person who wishes to further their lives and their careers, whether in the corporate world or starting out on an entrepreneurial journey. DJ Sbu's career is testimony to his strength, resilience and spirit of innovation; the very qualities needed to get ahead in today's rapidly evolving business environment. In sharing his story, he hopes to ignite others' success.

Profit and Pleasure Jul 01 2021 Drawing on an international range of examples, from Che Guevarra to "The Crying Game," *Profit and Pleasure* leads the discussion of sexuality to a consideration of material reality and the substance of men and women's everyday lives.

The Racial Contract Apr 29 2021 *The Racial Contract* puts classic Western social contract theory, deadpan, to extraordinary radical use. With a sweeping look at the European expansionism and racism of the last five hundred years, Charles W. Mills demonstrates how this peculiar and unacknowledged "contract" has shaped a system of global European domination: how it brings into existence "whites" and "non-whites," full persons and sub-persons, how it influences white moral theory and moral psychology; and how this system is imposed on non-whites through ideological conditioning and violence. *The Racial Contract* argues that the society we live in is a continuing white supremacist state. As this 25th anniversary edition—featuring a foreword by Tommy Shelbie and a new preface by the author—makes clear, the still-urgent *The Racial Contract* continues to inspire, provoke, and influence thinking about the intersection of the racist underpinnings of political philosophy.

Capitalist Nigger Nov 17 2022

World on Fire Jan 15 2020 The reigning consensus holds that the combination of free markets and democracy would transform the third world and sweep away the ethnic hatred and religious zealotry associated with underdevelopment. In this revelatory investigation of the true impact of globalization, Yale Law School professor Amy Chua explains why many developing countries are in fact consumed by ethnic violence after adopting free market democracy. Chua shows how in non-Western countries around the globe, free markets have concentrated starkly disproportionate wealth in the hands of a resented ethnic minority. These "market-dominant minorities" - Chinese in Southeast Asia, Croats in the former Yugoslavia, whites in Latin America and South Africa, Indians in East Africa, Lebanese in West Africa, Jews in post-communist Russia - become objects of violent hatred. At the same time, democracy empowers the impoverished majority, unleashing ethnic demagoguery, confiscation, and sometimes genocidal revenge. She also argues that the United States has become the world's most visible market-dominant minority, a fact that helps explain the rising

tide of anti-Americanism around the world. Chua is a friend of globalization, but she urges us to find ways to spread its benefits and curb its most destructive aspects.

Social Origins of Dictatorship and Democracy Apr 10 2022 A landmark in comparative history and a challenge to scholars of all lands who are trying to learn how we arrived at where we are now. -New York Times Book Review

I Write what I Like Jul 13 2022 On 12th September 1977, Steve Biko was murdered in his prison cell. He was only 31, but his vision and charisma - captured in this collection of his work - had already transformed the agenda of South African politics. This book covers the basic philosophy of black consciousness, Bantustans, African culture, the institutional church and Western involvement in apartheid.

The Broederbond Conspiracy Jan 27 2021

Antifa Feb 14 2020 The National Bestseller "Focused and persuasive... Bray's book is many things: the first English-language transnational history of antifa, a how-to for would-be activists, and a record of advice from anti-Fascist organizers past and present."—THE NEW YORKER "Insurgent activist movements need spokesmen, intellectuals and apologists, and for the moment Mark Bray is filling in as all three... The book's most enlightening contribution is on the history of anti-fascist efforts over the past century, but its most relevant for today is its justification for stifling speech and clobbering white supremacists."—Carlos Lozada, THE WASHINGTON POST "[Bray's] analysis is methodical, and clearly informed by both his historical training and 15 years of organizing, which included Occupy Wall Street...Antifa: The Anti-Fascist Handbook couldn't have emerged at a more opportune time. Bray's arguments are incisive and cohesive, and his consistent refusal to back down from principle makes the book a crucial intervention in our political moment."—SAN FRANCISCO CHRONICLE In the wake of tragic events in Charlottesville, VA, and Donald Trump's initial refusal to denounce the white nationalists behind it all, the "antifa" opposition movement is suddenly appearing everywhere. But what is it, precisely? And where did it come from? As long as there has been fascism, there has been anti-fascism — also known as "antifa." Born out of resistance to Mussolini and Hitler in Europe during the 1920s and '30s, the antifa movement has suddenly burst into the headlines amidst opposition to the Trump administration and the alt-right. They could be seen in news reports, often clad all in black with balaclavas covering their faces, demonstrating at the presidential inauguration, and on California college campuses protesting far-right speakers, and most recently, on the streets of Charlottesville, VA, protecting, among others, a group of ministers including Cornel West from neo-Nazi violence. (West would later tell reporters, "The anti-fascists saved our lives.") Simply, antifa aims to deny fascists the opportunity to promote their oppressive politics, and to protect tolerant communities from acts of violence promulgated by fascists. Critics say shutting down political adversaries is anti-democratic; antifa adherents argue that the horrors of fascism must never be allowed the slightest chance to triumph again. In a smart and gripping investigation, historian and former Occupy Wall Street organizer Mark Bray provides a detailed survey of the full history of anti-fascism from its origins to the present day — the first transnational history of postwar anti-fascism in English. Based on interviews with anti-fascists from around the world, Antifa details the tactics of the movement and the philosophy behind it, offering insight into the growing but little-understood resistance fighting back against fascism in all its guises.

Black No More Nov 05 2021 What would happen to the race problem in America if black people could suddenly become white?

Roar of the African Lion Oct 16 2022 The African Lion, Dr Chika Onyeani, is back and roaring. The author of the phenomenally successful Capitalist Nigger offers a new collection of his speeches, articles and other writings over the last fifteen years. In Roar of the African Lion, Dr Onyeani's unblinking gaze and plain speaking are directed at many of the burning issues of the day. He outlines his revolutionary Spider Web Doctrine—aimed at financial self-reliance and the upliftment of black communities—and attacks the parasitic leaders whose greed has robbed the people of Africa of opportunities for advancement and development since their liberation. He is equally scornful of the failures of the African elite to

influence the direction of their countries, and has trenchant comments to make about racism, xenophobia and hypocrisy in Africa, America and elsewhere. Dr Onyeani also tackles the persistence of slavery on the continent, the West's ambivalent attitude to aid and debt relief, rampant corruption and 'whiteness' of Barack Obama. Looking to the future, he cautions Africa to be wary of China's embrace and to pursue its own solutions to African problems.

Die, Nigger, Die! Oct 04 2021 This explosive book, which was first published in 1969 and has long been unavailable, tells the story of the making of a revolutionary. But it is much more than a personal history--it is a call to arms, an urgent message to the black community to be the vanguard force in the struggle of oppressed people.

Critical Theory Today Mar 29 2021 Critical Theory Today is the essential introduction to contemporary critical theory. It provides clear, simple explanations and concrete examples of complex concepts, making a wide variety of commonly used critical theories accessible to novices without sacrificing any theoretical rigor or thoroughness. This new edition provides in-depth coverage of the most common approaches to literary analysis today: feminism, psychoanalysis, Marxism, reader-response theory, new criticism, structuralism and semiotics, deconstruction, new historicism, cultural criticism, lesbian/gay/queer theory, African American criticism, and postcolonial criticism. The chapters provide an extended explanation of each theory, using examples from everyday life, popular culture, and literary texts; a list of specific questions critics who use that theory ask about literary texts; an interpretation of F. Scott Fitzgerald's *The Great Gatsby* through the lens of each theory; a list of questions for further practice to guide readers in applying each theory to different literary works; and a bibliography of primary and secondary works for further reading.

The Wages of Whiteness Dec 06 2021 Combining classical Marxism, psychoanalysis, and the new labor history pioneered by E. P. Thompson and Herbert Gutman, David Roediger's widely acclaimed book provides an original study of the formative years of working-class racism in the United States. This, he argues, cannot be explained simply with reference to economic advantage; rather, white working-class racism is underpinned by a complex series of psychological and ideological mechanisms that reinforce racial stereotypes, and thus help to forge the identities of white workers in opposition to Blacks.

Capitalist Nigger Jan 19 2023 Capitalist Nigger is an explosive and jarring indictment of the black race. The book asserts that the Negroid race, as naturally endowed as any other, is culpably a non-productive race, a consumer race that depends on other communities for its culture, its language, its feeding and its clothing. Despite enormous natural resources, blacks are economic slaves because they lack the 'devil-may-care' attitude and the 'killer instinct' of the Caucasian, as well as the spider web mentality of the Asian. A Capitalist Nigger must embody ruthlessness in pursuit of excellence in his drive towards achieve.

The Conquest of Bread May 11 2022 Written by a Russian prince who renounced his title, this work promotes an anarchist market economy — a system of autonomous cooperative collectives. A century after its initial publication, it remains fresh and relevant.

The Man Who Forgave God May 19 2020

Where We Stand Apr 17 2020 Drawing on both her roots in Kentucky and her adventures with Manhattan Coop boards, Where We Stand is a successful black woman's reflection--personal, straight forward, and rigorously honest--on how our dilemmas of class and race are intertwined, and how we can find ways to think beyond them.

Why Nations Fail Mar 09 2022 Brilliant and engagingly written, Why Nations Fail answers the question that has stumped the experts for centuries: Why are some nations rich and others poor, divided by wealth and poverty, health and sickness, food and famine? Is it culture, the weather, geography? Perhaps ignorance of what the right policies are? Simply, no. None of these factors is either definitive or destiny. Otherwise, how to

explain why Botswana has become one of the fastest growing countries in the world, while other African nations, such as Zimbabwe, the Congo, and Sierra Leone, are mired in poverty and violence? Daron Acemoglu and James Robinson conclusively show that it is man-made political and economic institutions that underlie economic success (or lack of it). Korea, to take just one of their fascinating examples, is a remarkably homogeneous nation, yet the people of North Korea are among the poorest on earth while their brothers and sisters in South Korea are among the richest. The south forged a society that created incentives, rewarded innovation, and allowed everyone to participate in economic opportunities. The economic success thus spurred was sustained because the government became accountable and responsive to citizens and the great mass of people. Sadly, the people of the north have endured decades of famine, political repression, and very different economic institutions—with no end in sight. The differences between the Koreas is due to the politics that created these completely different institutional trajectories. Based on fifteen years of original research Acemoglu and Robinson marshal extraordinary historical evidence from the Roman Empire, the Mayan city-states, medieval Venice, the Soviet Union, Latin America, England, Europe, the United States, and Africa to build a new theory of political economy with great relevance for the big questions of today, including: - China has built an authoritarian growth machine. Will it continue to grow at such high speed and overwhelm the West? - Are America's best days behind it? Are we moving from a virtuous circle in which efforts by elites to aggrandize power are resisted to a vicious one that enriches and empowers a small minority? - What is the most effective way to help move billions of people from the rut of poverty to prosperity? More philanthropy from the wealthy nations of the West? Or learning the hard-won lessons of Acemoglu and Robinson's breakthrough ideas on the interplay between inclusive political and economic institutions? Why Nations Fail will change the way you look at—and understand—the world.

The Color of Money Dec 14 2019 In 1863 black communities owned less than 1 percent of total U.S. wealth. Today that number has barely budged. Mehrsa Baradaran pursues this wealth gap by focusing on black banks. She challenges the myth that black banking is the solution to the racial wealth gap and argues that black communities can never accumulate wealth in a segregated economy.

Black Man's Medicine Jun 19 2020 "The title of this book comes from the African adage: "The Black Man's Medicine is the White Man." It implies that black people won't do anything right, unless there is a white man around, or that black people won't be satisfied with anything unless it has been done by a white man. Black Man's Medicine is about economic freedom. It introduces the idea that SEE (self-economic empowerment) is the new BEE. Most importantly, it insists that apartheid was a terrible and unfortunate part of our shared history but should no longer define our present challenges and myriad opportunities for success. In essence this book is about moving from mud and dust, through the boardroom and on to a new Africa, where people work hard and life is decent. Kuzwayo's self-professed goal is help us see our own, familiar truths differently, just in case they have passed their sell-by date, and to question the righteousness of our rituals and to test the accuracy of our adages"--Publisher description.

The Half Has Never Been Told Feb 08 2022 Winner of the 2015 Avery O. Craven Prize from the Organization of American Historians Winner of the 2015 Sidney Hillman Prize A groundbreaking history demonstrating that America's economic supremacy was built on the backs of slaves Americans tend to cast slavery as a pre-modern institution -- the nation's original sin, perhaps, but isolated in time and divorced from America's later success. But to do so robs the millions who suffered in bondage of their full legacy. As historian Edward E. Baptist reveals in *The Half Has Never Been Told*, the expansion of slavery in the first eight decades after American independence drove the evolution and modernization of the United States. In the span of a single lifetime, the South grew from a narrow coastal strip of worn-out tobacco plantations to a continental cotton empire, and the United States grew into a modern, industrial, and capitalist economy. Told through intimate slave narratives, plantation records, newspapers, and the words of politicians, entrepreneurs, and escaped slaves, *The Half Has Never Been Told* offers a radical new interpretation of American history.

Capitalism and Slavery Dec 18 2022 The present study is an attempt to place in historical perspective the relationship between early capitalism as exemplified by Great Britain, and the Negro slave trade, Negro slavery and the general colonial trade of the seventeenth and eighteenth centuries. It is strictly an economic study of the role of Negro slavery and the slave trade in providing the capital which financed the Industrial Revolution in England and of mature industrial capitalism in destroying the slave system.

Mein Kampf Jun 12 2022 'MEIN KAMPF' is the autobiography of Adolf Hitler gives detailed insight into the mission and vision of Adolf Hitler that shook the world. This book is the merger of two volumes. The first volume of MEIN KAMPF' was written while the author was imprisoned in a Bavarian fortress. The book deals with events which brought the author into this blight. It was the hour of Germany's deepest humiliation, when Napoleon has dismembered the old German Empire and French soldiers occupied almost the whole of Germany. The book narrates how Hitler was arrested with several of his comrades and imprisoned in the fortress of Landsberg on the river Lech. During this period only the author wrote the first volume of MEIN KAMPF. The Second volume of MEIN KAMPF was written after release of Hitler from prison and it was published after the French had left the Ruhr, the tramp of the invading armies still echoed in German ears and the terrible ravages had plunged the country into a state of social and economic Chaos. The beauty of the book is, MEIN KAMPF is an historical document which bears the imprint of its own time. Moreover, Hitler has declared that his acts and 'public statements' constitute a partial revision of his book and are to be taken as such. Also, the author has translated Hitler's ideal, the Volkischer Staat, as the People's State. The author has tried his best making German Vocabulary easy to understand. You will never be satisfied until go through the whole book. A must read book, which is one of the most widely circulated and read books worldwide.

The Name "Negro" Sep 22 2020 This study focuses on the exploitive nature of the word "Negro. Tracing its origins to the African slave trade, he shows how the label "Negro" was used to separate African descendents and to confirm their supposed inferiority. "

Long Walk to Freedom Aug 22 2020 The book that inspired the major new motion picture Mandela: Long Walk to Freedom. Nelson Mandela is one of the great moral and political leaders of our time: an international hero whose lifelong dedication to the fight against racial oppression in South Africa won him the Nobel Peace Prize and the presidency of his country. Since his triumphant release in 1990 from more than a quarter-century of imprisonment, Mandela has been at the center of the most compelling and inspiring political drama in the world. As president of the African National Congress and head of South Africa's antiapartheid movement, he was instrumental in moving the nation toward multiracial government and majority rule. He is revered everywhere as a vital force in the fight for human rights and racial equality. LONG WALK TO FREEDOM is his moving and exhilarating autobiography, destined to take its place among the finest memoirs of history's greatest figures. Here for the first time, Nelson Rolihlahla Mandela tells the extraordinary story of his life--an epic of struggle, setback, renewed hope, and ultimate triumph.

Our Ultimate Reality, Life, the Universe and Destiny of Mankind Nov 24 2020 "From the earliest days of thinking man, people the world over have pondered the nature of the Universe, our planet, and of ourselves. What does it all mean? Why am I here? What is the real purpose of my life? What will happen to me after I die? Will I return once again for another life on Earth?" So starts the first paragraph of this book, summarising and encapsulating very succinctly both the reason I was inspired to write *Our Ultimate Reality* and a concise summary of the contents contained therein. As we approach the end of a great age for humanity, increasingly more people from all walks of what we know as "life" are asking what it all means for them, for their families and for their future existence on this planet we call "Earth." *Our Ultimate Reality, Life, the Universe and Destiny of Mankind* is your complete reference and guide for realising the Divine heritage of each and every one of us as equal aspects of our Creator, a life of perfect happiness, health, abundance, fulfilment and Spiritual evolution. This book has been written in a modern, understandable, non-mystical way, setting out in a concise, logical, easy to follow format, all you need to know in order to understand, pursue and realise your own true potential during

this pivotally important era. I wish you every possible success as you follow your own true destiny on the path of return to our Divine Creator from Whom we came in the beginning, and wish that this book will prove to be your valuable guide and companion.

Capitalist Nigger Feb 20 2023 *Capitalist Nigger* is an explosive and jarring indictment of the black race. The book asserts that the Negroid race, as naturally endowed as any other, is culpably a non-productive race, a consumer race that depends on other communities for its culture, its language, its feeding and its clothing. Despite enormous natural resources, blacks are economic slaves because they lack the 'devil-may-care' attitude and the 'killer instinct' of the Caucasian, as well as the spider web mentality of the Asian. A *Capitalist Nigger* must embody ruthlessness in pursuit of excellence in his drive towards achieving the goal of becoming an economic warrior. In putting forward the idea of the *Capitalist Nigger*, Chika Onyeani charts a road to success whereby black economic warriors employ the 'Spider Web Doctrine' - discipline, self-reliance, ruthlessness - to escape from their victim mentality. Born in Nigeria, Chika Onyeani is a journalist, editor and former diplomat.

Race Matters Dec 26 2020 Now more than ever, *Race Matters* is a book for all Americans, as it helps us to build a genuine multiracial democracy in the new millennium."--BOOK JACKET.

From #BlackLivesMatter to Black Liberation Jan 07 2022 The author of *Race for Profit* carries out "[a] searching examination of the social, political and economic dimensions of the prevailing racial order" (Michelle Alexander, author of *The New Jim Crow*). In this winner of the Lannan Cultural Freedom Prize for an Especially Notable Book, Keeanga-Yamahtta Taylor "not only exposes the canard of color-blindness but reveals how structural racism and class oppression are joined at the hip" (Robin D. G. Kelley, author of *Freedom Dreams*). The eruption of mass protests in the wake of the police murders of Michael Brown in Ferguson, Missouri, and Eric Garner in New York City have challenged the impunity with which officers of the law carry out violence against black people and punctured the illusion of a post-racial America. The Black Lives Matter movement has awakened a new generation of activists. In this stirring and insightful analysis, activist and scholar Keeanga-Yamahtta Taylor surveys the historical and contemporary ravages of racism and the persistence of structural inequality, such as mass incarceration and black unemployment. In this context, she argues that this new struggle against police violence holds the potential to reignite a broader push for black liberation. "This brilliant book is the best analysis we have of the #BlackLivesMatter moment of the long struggle for freedom in America. Keeanga-Yamahtta Taylor has emerged as the most sophisticated and courageous radical intellectual of her generation." —Dr. Cornel West, author of *Race Matters* "A must read for everyone who is serious about the ongoing praxis of freedom." —Barbara Ransby, author of *Ella Baker and the Black Freedom Movement* "[A] penetrating, vital analysis of race and class at this critical moment in America's racial history." —Gary Younge, author of *The Speech: The Story Behind Dr. Martin Luther King Jr.'s Dream*

Prince of Darkness Oct 12 2019 In the middle decades of the nineteenth century Jeremiah G. Hamilton was a well-known figure on Wall Street. Cornelius Vanderbilt, America's first tycoon, came to respect, grudgingly, his one-time opponent. The day after Vanderbilt's death on January 4, 1877, an almost full-page obituary on the front of the *National Republican* acknowledged that, in the context of his Wall Street share transactions, "There was only one man who ever fought the Commodore to the end, and that was Jeremiah Hamilton." What Vanderbilt's obituary failed to mention, perhaps as contemporaries already knew it well, was that Hamilton was African American. Hamilton, although his origins were lowly, possibly slave, was reportedly the richest colored man in the United States, possessing a fortune of \$2 million, or in excess of two hundred and \$50 million in today's currency. In *Prince of Darkness*, a groundbreaking and vivid account, eminent historian Shane White reveals the larger than life story of a man who defied every convention of his time. He wheeled and dealt in the lily white business world, he married a white woman, he bought a mansion in rural New Jersey, he owned railroad stock on trains he was not legally allowed to ride, and generally set his white contemporaries teeth on edge when he

wasn't just plain outsmarting them. An important contribution to American history, Hamilton's life offers a way into considering, from the unusual perspective of a black man, subjects that are usually seen as being quintessentially white, totally segregated from the African American past.

Canceling Comedians While the World Burns Jul 21 2020 Between the decline of the labor movement, the aftershocks of the falls of so-called "actually existing socialism," and the long exile of even social democrats from the levers of real power, we have gotten far too used to thinking of leftism as a performative exercise in expressing our political commitments rather than a serious effort to achieve left-wing goals in the real world. *Canceling Comedians While the World Burns* calls for a smarter, funnier, more strategic left.

Underground Mar 17 2020 Suelette Dreyfus and her co-author, WikiLeaks founder Julian Assange, tell the extraordinary true story of the computer underground, and the bizarre lives and crimes of an elite ring of international hackers who took on the establishment. Spanning three continents and a decade of high level infiltration, they created chaos amongst some of the world's biggest and most powerful organisations, including NASA and the US military. Brilliant and obsessed, many of them found themselves addicted to hacking and phreaking. Some descended into drugs and madness, others ended up in jail. As riveting as the finest detective novel and meticulously researched, *Underground* follows the hackers through their crimes, their betrayals, the hunt, raids and investigations. It is a gripping tale of the digital underground.

The Hidden Wound Sep 03 2021 An impassioned, thoughtful, and fearless essay on the effects of racism on the American identity by one of our country's most humane literary voices. Acclaimed as "one of the most humane, honest, liberating works of our time" (*The Village Voice*), *The Hidden Wound* is a book-length essay about racism and the damage it has done to the identity of our country. Through Berry's personal experience, he explains how remaining passive in the face of the struggle of racism further corrodes America's great potential. In a quiet and observant manner, Berry opens up about how his attempt to discuss racism is rooted in the hope that someday the historical wound will begin to heal. Pulitzer prize-winning author Larry McMurtry calls this "a profound, passionate, crucial piece of writing . . . Few readers, and I think, no writers will be able to read it without a small pulse of triumph at the temples: the strange, almost communal sense of triumph one feels when someone has written truly well . . . The statement it makes is intricate and beautiful, sad but strong." "Mr. Berry is a sophisticated, philosophical poet in the line descending from Emerson and Thoreau." —*The Baltimore Sun* "[Berry's poems] shine with the gentle wisdom of a craftsman who has thought deeply about the paradoxical strangeness and wonder of life." —*The Christian Science Monitor* "Wendell Berry is one of those rare individuals who speaks to us always of responsibility, of the individual cultivation of an active and aware participation in the arts of life." —*The Bloomsbury Review* "[Berry's] poems, novels and essays . . . are probably the most sustained contemporary articulation of America's agrarian, Jeffersonian ideal." —*Publishers Weekly*

The Immortal Life of Henrietta Lacks Feb 25 2021 #1 NEW YORK TIMES BESTSELLER • "The story of modern medicine and bioethics—and, indeed, race relations—is refracted beautifully, and movingly."—*Entertainment Weekly* NOW A MAJOR MOTION PICTURE FROM HBO® STARRING OPRAH WINFREY AND ROSE BYRNE • ONE OF THE "MOST INFLUENTIAL" (CNN), "DEFINING" (LITHUB), AND "BEST" (THE PHILADELPHIA INQUIRER) BOOKS OF THE DECADE • ONE OF ESSENCE'S 50 MOST IMPACTFUL BLACK BOOKS OF THE PAST 50 YEARS • WINNER OF THE CHICAGO TRIBUNE HEARTLAND PRIZE FOR NONFICTION NAMED ONE OF THE BEST BOOKS OF THE YEAR BY *The New York Times Book Review* • *Entertainment Weekly* • *O: The Oprah Magazine* • NPR • *Financial Times* • *New York* • *Independent (U.K.)* • *Times (U.K.)* • *Publishers Weekly* • *Library Journal* • *Kirkus Reviews* • *Booklist* • *Globe and Mail* Her name was Henrietta Lacks, but scientists know her as HeLa. She was a poor Southern tobacco farmer who worked the same land as her slave ancestors, yet her cells—taken without her knowledge—became one of the most important tools in medicine: The first "immortal" human cells grown in culture, which are still alive today, though she has been dead for more than sixty years. HeLa cells were vital for developing the polio vaccine; uncovered secrets of cancer, viruses, and the atom bomb's effects; helped

lead to important advances like in vitro fertilization, cloning, and gene mapping; and have been bought and sold by the billions. Yet Henrietta Lacks remains virtually unknown, buried in an unmarked grave. Henrietta's family did not learn of her "immortality" until more than twenty years after her death, when scientists investigating HeLa began using her husband and children in research without informed consent. And though the cells had launched a multimillion-dollar industry that sells human biological materials, her family never saw any of the profits. As Rebecca Skloot so brilliantly shows, the story of the Lacks family—past and present—is inextricably connected to the dark history of experimentation on African Americans, the birth of bioethics, and the legal battles over whether we control the stuff we are made of. Over the decade it took to uncover this story, Rebecca became enmeshed in the lives of the Lacks family—especially Henrietta's daughter Deborah. Deborah was consumed with questions: Had scientists cloned her mother? Had they killed her to harvest her cells? And if her mother was so important to medicine, why couldn't her children afford health insurance? Intimate in feeling, astonishing in scope, and impossible to put down, *The Immortal Life of Henrietta Lacks* captures the beauty and drama of scientific discovery, as well as its human consequences.

Bloods Nov 12 2019 A NEW YORK TIMES NOTABLE BOOK • The national bestseller that tells the truth about the Vietnam War from the black soldiers' perspective. An oral history unlike any other, *Bloods* features twenty black men who tell the story of how members of their race were sent off to Vietnam in disproportionate numbers, and of the special test of patriotism they faced. Told in voices no reader will soon forget, *Bloods* is a must-read for anyone who wants to put the Vietnam experience in historical, cultural, and political perspective. Praise for *Bloods* "Superb . . . a portrait not just of warfare and warriors but of beleaguered patriotism and pride. The violence recalled in *Bloods* is chilling. . . . On most of its pages hope prevails. Some of these men have witnessed the very worst that people can inflict on one another. . . . Their experience finally transcends race; their dramatic monologues bear witness to humanity."—*Time* "[Wallace] Terry's oral history captures the very essence of war, at both its best and worst. . . . [He] has done a great service for all Americans with *Bloods*. Future historians will find his case studies extremely useful, and they will be hard pressed to ignore the role of blacks, as too often has been the case in past wars."—*The Washington Post Book World* "Terry set out to write an oral history of American blacks who fought for their country in Vietnam, but he did better than that. He wrote a compelling portrait of Americans in combat, and used his words so that the reader—black or white—knows the soldiers as men and Americans, their race overshadowed by the larger humanity Terry conveys. . . . This is not light reading, but it is literature with the ring of truth that shows the reader worlds through the eyes of others. You can't ask much more from a book than that."—*Associated Press* "*Bloods* is a major contribution to the literature of this war. For the first time a book has detailed the inequities blacks faced at home and on the battlefield. Their war stories involve not only Vietnam, but Harlem, Watts, Washington D.C. and small-town America."—*Atlanta Journal-Constitution* "I wish *Bloods* were longer, and I hope it makes the start of a comprehensive oral and analytic history of blacks in Vietnam. . . . They see their experiences as Americans, and as blacks who live in, but are sometimes at odds with, America. The results are sometimes stirring, sometimes appalling, but this three-tiered perspective heightens and shadows every tale."—*The Village Voice* "Terry was in Vietnam from 1967 through 1969. . . . In this book he has backtracked, Studs Terkel-like, and found twenty black veterans of the Vietnam War and let them spill their guts. And they do; oh, how they do. The language is raw, naked, a brick through a window on a still night. At the height of tension a sweet story, a soft story, drops into view. The veterans talk about fighting two wars: Vietnam and racism. They talk about fighting alongside the Ku Klux Klan."—*The Boston Globe*

The Wretched of the Earth May 31 2021 The sixtieth anniversary edition of Frantz Fanon's landmark text, now with a new introduction by Cornel West First published in 1961, and reissued in this sixtieth anniversary edition with a powerful new introduction by Cornel West, Frantz Fanon's *The Wretched of the Earth* is a masterful and timeless interrogation of race, colonialism, psychological trauma, and revolutionary struggle, and a continuing influence on movements from Black Lives Matter to decolonization. A landmark text for revolutionaries and activists, *The Wretched of the Earth* is an eternal touchstone for civil rights, anti-colonialism, psychiatric studies, and Black consciousness movements around the world. Alongside Cornel West's introduction, the book features critical essays by Jean-Paul Sartre and Homi K. Bhabha. This sixtieth anniversary edition of Fanon's most famous text stands proudly alongside such pillars of anti-colonialism and anti-racism as Edward Said's *Orientalism* and *The Autobiography of Malcolm X*.

How Europe Underdeveloped Africa Aug 02 2021 The classic work of political, economic, and historical analysis, powerfully introduced by Angela Davis In his short life, the Guyanese intellectual Walter Rodney emerged as one of the leading thinkers and activists of the anticolonial revolution, leading movements in North America, South America, the African continent, and the Caribbean. In each locale, Rodney found himself a lightning rod for working class Black Power. His deportation catalyzed 20th century Jamaica's most significant rebellion, the 1968 Rodney riots, and his scholarship trained a generation how to think politics at an international scale. In 1980, shortly after founding of the Working People's Alliance in Guyana, the 38-year-old Rodney would be assassinated. In his magnum opus, *How Europe Underdeveloped Africa*, Rodney incisively argues that grasping "the great divergence" between the west and the rest can only be explained as the exploitation of the latter by the former. This meticulously researched analysis of the abiding repercussions of European colonialism on the continent of Africa has not only informed decades of scholarship and activism, it remains an indispensable study for grasping global inequality today.

[Battle Cry of Freedom](#) Oct 24 2020 Filled with fresh interpretations and information, puncturing old myths and challenging new ones, *Battle Cry of Freedom* will unquestionably become the standard one-volume history of the Civil War. James McPherson's fast-paced narrative fully integrates the political, social, and military events that crowded the two decades from the outbreak of one war in Mexico to the ending of another at Appomattox. Packed with drama and analytical insight, the book vividly recounts the momentous episodes that preceded the Civil War--the Dred Scott decision, the Lincoln-Douglas debates, John Brown's raid on Harper's Ferry--and then moves into a masterful chronicle of the war itself--the battles, the

strategic maneuvering on both sides, the politics, and the personalities. Particularly notable are McPherson's new views on such matters as the slavery expansion issue in the 1850s, the origins of the Republican Party, the causes of secession, internal dissent and anti-war opposition in the North and the South, and the reasons for the Union's victory. The book's title refers to the sentiments that informed both the Northern and Southern views of the conflict: the South seceded in the name of that freedom of self-determination and self-government for which their fathers had fought in 1776, while the North stood fast in defense of the Union founded by those fathers as the bulwark of American liberty. Eventually, the North had to grapple with the underlying cause of the war--slavery--and adopt a policy of emancipation as a second war aim. This "new birth of freedom," as Lincoln called it, constitutes the proudest legacy of America's bloodiest conflict. This authoritative volume makes sense of that vast and confusing "second American Revolution" we call the Civil War, a war that transformed a nation and expanded our heritage of liberty.
