"First staged in 1713, Joseph Addison's *Cato: A Tragedy* inspired many in the eighteenth century with its portrayal of Roman senator Cato the Younger's (95-46 B.C.) willingness to take his own life rather than to submit to the tyrannical rule of Julius Caesar. Set in North Africa, the play depicts the final hours of Cato's resistance to Caesar. George Washington found *Cato* such a powerful statement of liberty, honor, virtue, and patriotism that he had it performed for his men in Valley Forge during the American Revolution." "Despite Cato's enormous success, Addison was perhaps best known as an essayist. This volume brings together Addison's dramatic masterpiece along with a selection of his essays that are directly related to the play and that develop its key themes."--Jacket. *Holländ., franz., dt., span. und ital.* Zusammenfass. Named a Most Anticipated Book of 2022 by Literary Hub A leading microbiologist tackles the scientific and sociopolitical impact of viruses in twelve striking essays. Invisible in the food we eat, the people we kiss, and inside our own bodies, viruses flourish—with the power to shape not only our health, but our social, political, and economic systems. Drawing on his expertise in microbiology, Joseph Osmundson brings readers under the microscope to understand the structure and mechanics of viruses and to examine how viruses like HIV and COVID-19 have redefined daily life. Osmundson's buoyant prose builds on the work of the activists and thinkers at the forefront of the HIV/AIDS crisis and critical scholars like José Esteban Muñoz to navigate the intricacies of risk reduction, draw parallels between queer theory and hard science, and define what it really means to "go viral." This dazzling multidisciplinary collection offers novel insights on illness, sex, and collective responsibility. *Virology* is a critical

warning, a necessary reflection, and a call for a better future. What is a liberal education and what part can science play in it? How should we think about the task of developing a curriculum? How should educational research conceive of its goals? Joseph Schwab's essays on these questions have influenced education internationally for more than twenty-five years. Schwab participated in what Daniel Bell has described as the "most thoroughgoing experiment in general education in any college in the United States," the College of the University of Chicago during the thirties, forties, and fifties. He played a central role in the curriculum reform movement of the sixties, and his extraordinary command of science, the philosophy of science, and traditional and modern views of liberal education found expression in these exceptionally thoughtful essays. The late Nobel Prize-winning poet and essayist explores a broad spectrum of topics, including the future of poetry, the nature of history, the condition of exile, the art of reading, the poetry of Robert Frost, and studies of the work of Hardy, Horace, Rilke, and Stephen Spender. Reprint. Discusses history of population theory MP Examines the theoretical motifs which should be considered in formulating any population theory, and brings in to focus the author's reflects on population and economic climate of developing ... Joseph Kerman is one of the most eminent, wide ranging, and readable of today's writers on music. Admirers of his many books - on musicology, opera, Beethoven, and Elizabethan music - will find much to interest them in this collection of essays, taken from general journals, such as the *Hudson Review* and the *New York Review of Books*, as well as more specialized publications. An adventure with a roving genius of literary criticism Michael Hofmann—poet, translator, and intellectual vagabond—has established himself as one of the keenest critics of contemporary literature. Safely nestled between the covers of *Where Have You Been?*, he offers a hand to guide us and an encouraging whisper in our ear, leading us on a trip through what to read, how to think, and why to like. And while these essays bear sharp insights that will help us revisit writers with a fresh eye, they are also a story of love between a reader and his treasured books. In the thirty essays collected here, Hofmann brings his signature wit and sustained critical mastery to a poetic, penetrating, and candid discussion of the writers and artists of the last hundred years. Here are the indispensable poets without which contemporary poetry would be unimaginable—Elizabeth Bishop, "the poets' poets' poet," the "ghostly skill" of Robert Lowell, and the man he calls the greatest English poet since Shakespeare, Ted Hughes. But he also illumines the despair of John Berryman and the antics of poetry's bogeyman, Frederick Seidel. In essays on art that are themselves works of art, Hofmann's agile and brilliant mind explores a panoply of subjects from the mastery of translation to the best day job for a poet. What these diverse gems share are the critic's insatiable curiosity and

great charm. *Where Have You Been?* is an unmissable journey with literature's most irresistible flaneur. Includes critical essays on Henry James, Virginia Woolf, James Joyce, D.H. Lawrence, Gertrude Stein, F. Scott Fitzgerald, Stendhal, Balzac, Marcel Proust, Andre Malraux, Paul Valery, Thomas Mann, William Shakespeare (Antony and Cleopatra), and other topics. "[His] way with the familiar essay--that flexible, forgiving genre in which anything goes except charmlessness and anonymity--has much in common with that of Messrs, Beerbohm, Liebling, and Mencken. Each piece is exquisitely sustained, moving from point to point with the relaxed economy of a pro." --Wall Street Journal "Wechsberg was a connoisseur in the old Continental sense of the word, a man who valued perfection for its own sake, seeing its quest as worthy and its attainment as eminently possible. Born in 1907 into a wealthy, assimilated Jewish family, he saw his comfortable life threatened by World War I and then extinguished by Hitler's annexation of his native Czechoslovakia. He came to America with only a basic command of English but an impressive understanding of what was happening in Europe. His most powerful essays, describing the tragic political fragmentation of Europe at the end of World War II, are never strident or bitter; his appreciations of Europe's finer offering are a sheer delight."--Jacket. Excerpt from *Selected Essays of Joseph Addison And Spectator in the formation of the English Novel*, it can scarcely be denied that to those periodicals is due the Eighteenth Century Essay. Indeed, one might almost write *Modern English Essay*, since (making due allowance for increased complexities of life and larger fields of discussion) neither in the compressed *dogmata vitae* of Bacon, nor in the utterances, leisurely or courtly, of Cowley and Temple, do we find anything so nearly corresponding to the existing journalistic middle article as many of the later papers in the *Tatler* of 1709-11. From the outset, Captain Steele, the Editor of that *Letter of Intelligence*, had proclaimed his intention of observing upon the *Mariners of the Pleasurable* as well as the *Busie Part of Mankind* but it was not until his eighteenth number had been reached that the note of a new method was definitely struck. This was in a contributed paragraph on the *Distress* (of the *News Writers*, whose lamentable fate it was, in default of fresh advices from France 'or Holland, to have to manufacture their own material to sing the furious troops in battle join'd, when there was no battle to abandon sieges never begun; and to raise the hymn. Unquestionably Joseph Epstein. Epstein is penetrating. He is witty. He has a magic touch with words, that hard to define but immediately recognizable quality called style. Above all, he is impossible to put down. How easy it is today to forget the simple delight of reading for no intended purpose. Each of the 39 pieces in this book is a pure pleasure to read. Essays af den sovjetiske Nobelprismodtager og forfatter (f. 1940) om poesi, litteratur, politik og historie, samt om hans egen barndom i Leningrad Epstein's sixth collection of personal pieces winningly and brilliantly rounds off his 23-year tenure as editor of "The American Scholar". Among the topics covered are naps, Gershwin aging, name-dropping, long books, pet peeves, talent vs. genius, Anglophilia, and surgery--the head and the heart. Excerpted in "The New Yorker". Saloon-keepers and street preachers, gypsies and steel-walking Mohawks, a bearded lady and a 93-year-old "seafoodetarian" who believes his specialized diet will keep him alive for another two decades. These are among the people that Joseph Mitchell immortalized in his reportage for The New Yorker and in four books—McSorley's Wonderful Saloon, Old Mr. Flood, The Bottom of the Harbor, and Joe Gould's Secret—that are still renowned for their precise, respectful observation, their graveyard humor, and their offhand perfection of style. These masterpieces (along with several previously uncollected stories) are available in one volume, which presents an indelible collective portrait of an unsuspected New York and its odder citizens—as depicted by one of the great writers of this or any other time. Explore the mysteries of myth with a master In these pages, the Collected Works of Joseph Campbell presents twelve eclectic, far-ranging, and brilliant essays gathered together for the first time. The essays explore myth in all its dimensions: its history; its influence on art, literature, and culture; and its role in everyday life. This second volume of Campbell's essays (following The Flight of the Wild Gander) brings together his uncollected writings from 1959 to 1987. Written at the height of Campbell's career—and showcasing the lively intelligence that made him the twentieth century's premier writer on mythology—these essays investigate the profound links between myth, the individual, and societies ancient and contemporary. Covering diverse terrain ranging from psychology to the occult, from Thomas Mann to the Grateful Dead, from Goddess spirituality to Freud and Jung, these playful and erudite writings reveal the threads of myth woven deeply into the fabric of our culture and our lives. Included in these eighteen essays by Cone are his never-before-published essay, "The World of Opera and Its Inhabitants," the unabridged version of "Music: A View from Delft," an introduction to this collection by the author himself, and a complete bibliography of his published writings. "This selection of [Cone's] writings includes all the most incandescent and influential articles. We should have had such a book long ago."—Joseph Kerman, University of California at Berkeley Winner of the ASCAP-Deems Taylor Award for 1990 Joseph Addison: Tercentenary Essays is a collection of fifteen essays by a team of internationally recognized

experts specially commissioned to commemorate the three hundredth anniversary of Addison's death in 2019. Almost exclusively known now as the inventor and main author of The Spectator, probably the most widely read and imitated prose work of the eighteenth century, Addison also produced important and influential work across a broad gamut of other literary modes—poems, verse translations, literary criticism, periodical journalism, drama, opera, travel writing. Much of this work is little known nowadays even in specialist academic circles; Addison is often described as the most neglected of the eighteenth century's major writers. This volume is the first collection to address the full range and variety of Addison's career and writings. Its fifteen chapters fall into three groupings: the first set study Addison's work in modes other than the literary periodical (poetry, translation, travel writing, drama); the second set address The Spectator from a variety of disciplinary perspectives (literary-critical, sociological and political, bibliographical); and the final set explore Addison's reception within several cultural spheres (philosophy, horticulture, art history), by individual writers or across larger historical periods (the Romantic age, the Victorian age), and in Britain and Europe, especially France. The volume provides an overdue and appropriately diverse memorial to one of the dominant men of letters of the Georgian era. The focus of Joseph Stiglitz's work in economics throughout his long and distinguished career has been on the real world, with all of its imperfections. In these homilies, most of which are previously unpublished, Joseph Ratzinger, now Pope Emeritus Benedict XVI, addresses the theme he has celebrated, pondered, and witnessed by his life more than any other: love. For him, love is the vital nucleus of the Church and to serve Christ is above all a question of love: "Peter, do you love me? Feed my sheep" (Jn 21:15-17). Love is also the quest of every human being on the journey toward eternity. He beautifully states, "Christianity is a movement, a journey; it is not a theory, a sum total of doctrine; Christianity is life, it is a vital impetus that carries us toward true life. . . . Someone who has found love can say: I have found life." Arranged by the liturgical seasons of the Church year, the homilies predate the author's pontificate. The earliest dates from 1970 while he was still a professor of theology. Thus, this collection traces the way Joseph Ratzinger has been enamored of the love of God throughout his years of serving the Church. What does it mean to be a man? Does it mean you're way too serious, are all grown up, and have ditched your sweats and gym shoes for cardigan sweaters and loafers? Does being a man mean you're tough and have no tears, no emotions? Or does being a man mean taking responsibility for your life, learning from your mistakes and the mistakes of others, and creating priorities, goals, and expectations? Being a man is about being an adult, embracing the male mindset, and treating yourself with the respect a real man deserves. Be A Man offers frank, honest, hard-hitting advice. Be smart when it comes to sex. Save money. Eat healthy, but eat some junk every now and then. Don't get married too soon. Don't worry what other people think. Choose something you want to do with your life and go do it. Be determined. Take action. Get things done. Live your life and be happy. This collection of essays focuses on what it

means to be a man in today's society. In this book you'll find funny, poignant, serious, and tender truths in plain language. These essays are written by men that have made mistakes, have found success, have experienced the highs and lows of relationships, and have gems of wisdom to offer the next generation of young men. The "boxes" and collages constructed by Joseph Cornell (1903-72) are among the most intriguing and beguiling works of art made this century. Drawing on the widest range possible of primary material and interviews, author Lindsay Blair gives us the most detailed picture yet of an artist whose boxes were built from a mass of intensely felt personal yearning, attachments, fears, and disappointments. 34 color and 90 b&w illustrations. G.K. Chesterton was a master essayist. But reading his essays is not just an exercise in studying a literary form at its finest, it is an encounter with timeless truths that jump off the page as fresh and powerful as the day they were written. The only problem with Chesterton's essays is that there are too many of them. Over five thousand! For most GKC readers it is not even possible to know where to start or how to begin to approach them. So three of the world's leading authorities on Chesterton - Dale Ahlquist, Joseph Pearce, Aidan Mackey - have joined together to select the "best" Chesterton essays, a collection that will be appreciated by both the newcomer and the seasoned student of this great 20th century man of letters. The variety of topics are astounding: barbarians, architects, mystics, ghosts, fireworks, rain, juries, gargoyles and much more. Plus a look at Shakespeare, Dickens, Jane Austen, George MacDonald, T.S. Eliot, and the Bible. All in that inimitable, formidable but always quotable style of GKC. Even more astounding than the variety is the continuity of Chesterton's thought that ties everything together. A veritable feast for the mind and heart. While some of the essays in this volume may be familiar, many of them are collected here for the first time, making their first appearance in over a century. This collection of essays amply demonstrates the wide range of the poet's interests and includes essays on poetry, politics, and literature and his memoir of life in Leningrad A poet, critic and theoretician at the turn of the 20th century, Viacheslav Ivanov was dubbed Viacheslav the Magnificent by his contemporaries. This volume of essays covers a broad range of Ivanov's interests including the aesthetics of Symbolism, theatre and culturological concerns.
