Sumerian secrets and mysteries of Mesopotamia are finally revealed in the first complete modern guide to Babylonian tradition. An anthology of arcane history, theory and esoteric practices spanning thousands of years, by the author of the underground bestseller--"Necronomicon: The Anunnaki Bible." This amazing source book of esoteric archaeology reveals the secret Anunnaki tradition of Babylon, forbidden knowledge spanning thousands of years--from the

Sumerian origins of civilized systems in ancient Mesopotamia to the underground occult traditions of Aleister Crowley, Kenneth Grant, and millions of people who have read Simon's Necronomicon. Joshua Free, world renown esoteric expert and Director of the modern "Mardukite Research Organization," invites the Seeker on an incredible progressive journey to illuminate the most ancient and inaccessible facets of human history, spirituality and religious tradition on the planet. For the first time ever, anyone can discover the secrets of the Sumerian Anunnaki and the origins of all physical and metaphysical systems born from the Mesopotamian Mystery Tradition that directly led to Babylonian religion--a unique combination of Sumerian, Akkadian, Assyrian and Chaldean lore revealed with perfect clarity for all modern readers: the academic, esoteric and even the "just curious." Originally published in four installments, the Gates of the Necronomicon anthology collects some of the most critical contributions from the modern "Mardukite Research Organization." Joshua Free's underground classic is now available to the public in hardcover for the first time ever in a new rewritten and revised 10th Anniversary Collector's Edition with amazing cover graphics by Kyra Kaos. The Sumerians, the pragmatic and gifted people who preceded the Semites in the land first known as Sumer and later as Babylonia, created what was probably the first high civilization in the history of man, spanning the fifth to the second millenniums B.C. This book is an unparalleled compendium of what is known about them. Professor Kramer communicates his enthusiasm for his subject as he outlines the

history of the Sumerian civilization and describes their cities, religion, literature, education, scientific achievements, social structure, and psychology. Finally, he considers the legacy of Sumer to the ancient and modern world. "There are few scholars in the world qualified to write such a book, and certainly Kramer is one of them. . . . One of the most valuable features of this book is the quantity of texts and fragments which are published for the first time in a form available to the general reader. For the layman the book provides a readable and up-to-date introduction to a most fascinating culture. For the specialist it presents a synthesis with which he may not agree but from which he will nonetheless derive stimulation."—American Journal of Archaeology "An uncontested authority on the civilization of Sumer, Professor Kramer writes with grace and urbanity."—Library Journal The earliest history of Babylon is little known. Among the many cities flourishing in southern Iraq, the town first appears in texts in the third millennium BC. Until the last century of the third millennium, few references existed to Babylon; however, offerings made to the temple of Enlil in Nippur during this period (when Babylon was part of an empire ruled by Ur) suggest a city already of some size and wealth. From relative obscurity in the middle of the 18th century BC, Babylon emerged as the political center of southern Mesopotamia. It held this position almost continuously for the next 1,400 years. Near Baghdad, around 85 kilometers south of the Euphrates, is the site of Babylon. The area is located north of the great alluvial plain of southern Iraq, a landscape

of silts deposited by the Tigris and Euphrates into a vast rift created by tectonic movement as the Arabian plate slips beneath the neighboring Eurasian plate. In addition to defining modern-day Iraq's northern and eastern boundaries, the Taurus and Zagros mountain ranges were created by the same collision. As a result, Mesopotamia encompasses several environmental zones, but Babylon itself is found in the flat alluvial plain in southern Iraq. In addition to containing one of the world's earliest cities<sup>3</sup>, the table is subject to several significant environmental constraints that have shaped human settlements since long before the foundation of Babylon. Rain-fed agriculture is beyond the reach of this area due to its high temperatures. Despite the little precipitation this part of Iraq receives, it is uneven and unreliable: the bulk of a season's rain can fall in a single downpour, damaging crops as severe droughts.<sup>4</sup> Human habitation is dependent on the two great rivers, and the permanent settlement requires irrigation. Upon establishment, however, on the levees of canals, such a system could benefit from the rich alluvial soils and support highly productive agriculture. In explaining the region's early urbanization and accompanying economic development, many contend that the region's ability to produce large agricultural surpluses played a significant role, though in what way is hotly contested. Herodotus was undoubtedly impressed. As a grain-bearing country, Assyria [meaning Mesopotamia] is the richest globally, he writes in his description of the fifth century BC. Figs, grapes, olives, or other fruit trees are not grown there, but the grain fields tend to produce

crops two hundredfold and three hundredfold in exceptional years. At least three inches wide are the wheat and barley blades. Millet and sesame grow to an astonishing size, as I know, but those who have not visited Babylon have refused to believe even what I have already described as its fertility. Sesame oil is the only oil they use, and date palms, most of which bear fruit, provide them with food, wine, and honey. The line of Western Spirituality began in Egypt and continued through the time of Christ. Has it become stalled in the years since? Robert Clarke says yes, it has. In *The Four Gold Keys*, Clarke, going by his own spiritualization in the psychic depths, argued that the way out of Western civilization's essential atheism lies in the psychological teachings of Swiss psychologist Carl Jung. In *An Order Outside Time*, Clarke reinterprets Western Spirituality, using Jungian symbolism, to show that the great stories of ancient Egypt and of the Old and New Testament are processes of what Jung called individuation. This is the individual's journey from lowest to highest Self; from Osiris to Horus, from Moses to Joshua, from David to Solomon, from John the Baptist to Jesus Christ. These pairings also reflect what Joseph Campbell calls the Hero's Journey, which may ultimately spiritualize the whole culture. Clarke traces the connections between Egyptian, Jewish, and Christian mythology, and concluding that the West's spiritual lineage has become stalled maintains that we can attain wholeness only by making sense of the clues provided by our mythology. This is the royal line of Higher Self incarnations through the collective unconscious. The ultimate example of individuation, Clarke says, is

the Christ, who must now be further understood and developed. And, taking Christ as our symbol of the Self, direct experience of the sacred, by each of us, can enable us to achieve our greatest spiritual potential, both as individuals and as a whole culture. An Order Outside Time shows how that spiritual journey began and how it must be continued. Ancient Sumerians and Babylonians of Mesopotamia used the cuneiform Tablets of Destiny & Epic of Creation to systematize all cosmic knowledge into a workable paradigm called "Mardukite Zuism"-a precise systemology received directly from the Anunnaki. And for the first time in modern history, a religious movement has emerged with workable spiritual technology that is relevant to the state of humanity far more than anything before known. The true Destiny of Humanity is to achieve spiritual Self-Actualization; the reunion of Self with the Divine. History demonstrates how dangerous and troublesome the idea of "Religion" actually is and how easily it is misused. For purposes of incorporating Mardukite Zuism into a contemporary standard, the idea of religion is here treated as: a concise spiritual paradigm and set of beliefs and practices regarding Divine "Infinite Beingness"-or else "God." It should be understood that the Highest form of "True Worship" is to fulfill personal destiny and this begins with the Spirit-the true Self-and all external practices, rituals, ceremonies and historical examples are but outer reflections of this ideal. The word "ZU" meant "knowing" in original Sumerian cuneiform script. Goals and ideals of Zuism reflect this. Mardukite Zuism seeks to assist an individual in reclaiming a realization of the True

Self or "I-AM" as the Immortal Spirit, in line with a most ancient directive: to "Know Thyself." In view of the fact that all modern humans are subjected to technologies depriving them of their freedoms to be, think, know and pursue truth: the goals and ideals of Zuism are to effectively revive and repair abilities and certainties of the Individual. Joshua Free first publicly launched "Mardukite Ministries" on the Summer Solstice, June 21, 2008. An active research division called the "Mardukite Chamberlains" was established in 2009, which developed and published a research library. In 2019, Joshua Free released the first published practical discoveries of "Mardukite Systemology" which now contributes applicable methods of spiritual technology that further the development of "Mardukite Zuism" as an effective religion to promote the spiritual advancement of anyone. Following the recent release of "Tablets of Destiny: Using Ancient Wisdom to Unlock Human Potential" and "Crystal Clear: The Self-Actualization Manual", this concise booklet by Joshua Free expertly presents a summation of the most promising futurist religious movement of the 21st century! Cuneiform records made some three thousand years ago are the basis for this essay on the ideas of death and the afterlife and the story of the flood which were current among the ancient peoples of the Tigris-Euphrates Valley. With the same careful scholarship shown in his previous volume, *The Babylonian Genesis*, Heidel interprets the famous Gilgamesh Epic and other related Babylonian and Assyrian documents. He compares them with corresponding portions of the Old Testament in order

to determine the inherent historical relationship of Hebrew and Mesopotamian ideas. They came to Earth thousands of years ago to usher in mankind's first New Age of scientific growth and spiritual enlightenment. Under the guidance of these ancient visitors from the heavens, human civilisation flourished - as revolutionary advances in art, science and thought swept through the inhabited world. And they left behind magnificent monuments -- baffling monoliths and awesome, towering structures that stand to this day as testaments to their greatness. In this extraordinarily documented, meticulously researched work, Zecharia Sitchin draws remarkable correlations between the events that shape our civilisation in millennia past - pinpointing with astonishing accuracy the tumultuous beginning of time as we know it . . . and revealing to us the indisputable signature of extraterrestrial god indelibly written in stone. An insider's look into the decades of research behind Zecharia Sitchin's books as well as an in-depth overview of his theories and discoveries • Includes carefully selected chapters from the Earth Chronicles series as well as never-before-published letters, articles, and lectures • Each piece includes an introduction, offering context and insight into Sitchin's passionate work and revealing the man behind the theories • Explains the genesis of The 12th Planet, the Anunnaki influences on the Sumerian civilization, the orbit of Nibiru, the prehistory of the Americas, the extraterrestrial origins of modern man, and much more What if the tales from the Old Testament and other ancient writings, such as those from Sumer, Babylon, Egypt, and Greece, were not

myths or allegory but accounts of actual historical events? Known for his ability to read and interpret ancient Sumerian and Akkadian clay tablets, Zecharia Sitchin (1920-2010) took the words of our most ancient ancestors as fact and, through decades of meticulous research, showed that they revealed a coherent narrative about the true origins of humanity and civilization. Drawing both widespread interest and criticism, his Earth Chronicles series of books, beginning with *The 12th Planet*, detailed how humanity arose after the arrival of the Anunnaki ("those who from Heaven to Earth came"), alien "gods" who created modern man in their own image and imparted gifts of civilizing knowledge. Providing an insider's look into the decades of research behind Zecharia Sitchin's complete works as well as an in-depth overview of his theories, this collection includes carefully selected chapters from the Earth Chronicles series as well as never-before-published letters, articles, and lectures. We learn about the genesis of *The 12th Planet* in "The Book as a Story," the Sumerians and their Anunnaki influences in "The Sudden Civilization," the orbit of Nibiru in "UFOs, Pyramids, and the 12th Planet," the prehistory of the Americas in "Cities Lost and Found," the extraterrestrial origins of modern man in "The Cosmic Connection--DNA," and much more. We get to read never-before-published lectures, culled from Sitchin's decades of presentations, as well as the article that spurred the writing of *There Were Giants Upon the Earth*. Each piece includes an introduction by Sitchin's niece, offering context and insight into Sitchin's passionate work. These introductions reveal the man behind the theories, a

world traveler known for his scholarship, dry humor, and precisely chosen words. If his theories are true, as Sitchin wholeheartedly believed, then this collection presents some of the most important knowledge we have of our origins and future. Every man, woman and child on the planet is affected by the stunning information that Icke exposes. Destined to be a global blockbuster. The Sumerians are today's wonder of the day and another incredible ancient society. Ancient Sumer, a group of city-states, was in Mesopotamia. The Sumerians invented arithmetic geometry, writing, and armies. Furthermore, their publications educate readers about Sumerian culture today. The Sumerian civilization flourished between 4100 and 1750 B.C. "Sumer" was named after the "land of cultured rulers." Sumer was one of the earliest to divide the day into hours and minutes. They also had a sophisticated religion centered on gods known as the Anunnaki. The Sumerians' destiny was thought to be in the hands of the Anunnaki. The Anunnaki were often depicted in myths as judging humankind. The gods were also known as the children of the Earth and the Sky. Most people regard these tales as myths, just like the Greek gods. Others, though, wonder whether there is more to the story. Some scientists think the Anunnaki were actual people. They might have come from another planet, according to popular belief. Many individuals believe they are from the enigmatic planet X, which they claim passed incredibly close to Earth thousands of years ago. Why would aliens come to Earth and behave like gods? Of course, to enslave humans! According to this theory, the Anunnaki compelled the Sumerians to dig

for gold for them. The Anunnaki departed for Planet X after they had all they needed. According to some, the Anunnaki were a kind of reptile humanoid. They argue that these reptiles assisted the Sumerians in the development of their writing and mathematical systems. Furthermore, they believe that reptiles still exist and have influence over people. Were the Anunnaki genuine? Or have they fabricated gods? One thing is sure: these ancient Sumerian deities continue to attract humans. What do all books about the Anunnakis have in common? The answer doesn't really matter because in this book Shafak GokTurk brings a different perspective on the subject, one that will take you to another dimension of reality in our world. Ever wonder how humankind was able to make such tremendous progress over the last 2,000 years? Why is leadership of the world shifting from East to West in politics, economics, and technology? GokTurk makes significant claims that will answer some of these questions and may radically change your viewpoint on the world. Unlike some authors who claim the Anunnakis left our world, GokTurk historically and methodically proves that they remain and have had a significant impact on our

lives. The two main groups of Anunnaki—Enlil and Enki—are still active and have always been. A shift of power from one to the other that will reshape our world in the near future is imminent. Will this shift of power bring peace and prosperity, or are we destined to take a turn for the worse? Reading this book will enlighten you about various topics: who Admiral Byrd had a conversation with; Who is Shem to the great Rumi? What are the messages that these people were trying to give us? Do Anunnakis take humans into their society by allowing them to live forever? Purchase the book now to see the world order from a new perspective, as we come closer to meeting our true ancestors in 2060 (?). At the dawn of a new era, a new age -- a new "Babylon" -- secret knowledge and wisdom of the greatest empire in history, originally guarded and hidden by the most progressive ruler of western civilization -- Nebuchadnezzar II -- now stands open to all, freshly recovered and translated from the deserts of Middle East... unearthed beyond time and space from ancient Mesopotamia! The tablet collection known as the "Sajaha Series" first relayed to the public in 1991 is in the German language: "Das Buch der Sajaha: Neunzehn Schriftsätze der Babylonianischer Sehek," would have appeared as "The Book of Sajaha - Nineteen Writings of the Babylonian Seer"-had it ever been produced in English. More recently Max Cold Champion & Aldo Espinosa released another edition in 2009, again in German, titled: "Sajaha: Die Prophezeiungen für ein Neues Zeitalter Babylon, Nebukadnezar und der Dritte Sargon." ["Sajaha: Prophecies of a New Age of Babylon, Nebuchadnezzar and the Third Sargon."] The Mardukite edition of THE

**LOST BOOK OF SHAYAHA: SEER OF MARDUK (Liber S)** marks a new phase in the Mardukite work-featuring the prophecies, visions and advisement of a great Babylonian seer -- "Sajaha" accounts of a future rise of New Babylon from her point of view. As you reflect upon the lines of this tablet series, the prophecies and visions most surely conjure vivid imagery to mind, not to mention what the intended audience for them would have been thinking-for they were once the private possession of the Babylonian king of Sajaha's time, King Nebuchadnezzar II, a supporter of a progressive fruitful and benevolent pro-Mardukite era of Babylonian Renaissance for nearly half of a century! **EDITION NOTE:** Previously published as "Sumerian Wisdom & Anunnaki Prophecies: The Book of Sajaha-the-Seer" Over the years, startling evidence has been unearthed, challenging established notions of the origins of Earth and life on it, and suggesting the existence of a superior race of beings who once inhabited our world. The product of thirty years of intensive research, **The 12th Planet** is the first book in Zecharia Sitchin's prophetic Earth Chronicles series--a revolutionary body of work that offers indisputable documentary proof of humanity's extraterrestrial forefathers. Travelers from the stars, they arrived eons ago, and planted the genetic seed that would ultimately blossom into a remarkable species...called Man. **The 12th Planet** brings to life the Sumerian civilization, presenting millennia-old evidence of the existence of Nibiru, the home planet of the Anunnaki, and of the landings of the Anunnaki on Earth every 3,600 years, and reveals a complete history of the solar system as told by these early

visitors from another planet. Zecharia Sitchin's Earth Chronicles series, with millions of copies sold worldwide, deal with the history and prehistory of Earth and humankind. Each book in the series is based upon information written on clay tablets by the ancient civilizations of the Near East. The series is offered here, for the first time, in highly readable, hardbound collector's editions with enhanced maps and diagrams. Discover a secret library of Sumerian cuneiform tablets kept by the Babylonian mystery school of Mesopotamia preserving the most ancient writings on the planet. A revised and updated Deluxe Edition hardcover of the underground classic! Anunnaki governor Ur-Nammu, who subsequently became an independent king (2113-2096 BC) and founded a spin-off dynasty known as the Third Dynasty of Ur

(or Ur 3 period), lasted for more than a century (2113-2006 BC). Anunnaki civilization in its most advanced form showed a more compact Anunnaki empire than Sargon of Agade. Over a hundred thousand cuneiform tablets from this period, depicting gods and descendants of Nibiru, indicate the existence of a highly organized bureaucratic society. References to the Anunnaki became obsessive. On one tablet, an exact count of Anunnaki Deities (2,740 in total), although only 96 were worshipped as Gods, was added to the Anunnaki realm. Anunnaki was even recorded as returning to Nibiru to celebrate a festival in documents found on Nibiru. As archaeology indicates, as widespread evidence of Anunnaki Temple activities show, it was an era of considerable material prosperity despite or perhaps because of this sophisticated Anunnaki worship. Ur-Nammu himself, the founder of the Anunnaki dynasty, built or rebuilt temples in several ancient cities, including Erech, Lagash, Nippur, and Eridu, but especially at his Anunnaki capital, Ur. He rebuilt the ziggurat here, a massive rectangular stepped tower about two hundred feet by 150 feet at the base and perhaps 70 feet high, with a shrine at the top, as a tribute to the moon-doing deity Nanna. Sir Leonard Woolley uncovered this ziggurat in 1923 after it had been repaired by later kings and restored by later kings. It remains a monument to Ur-Nammu's piety. Several Anunnaki temple-building calculations have been made possible due to chance references to writings of the period. Although it was not the largest temple in Sumer, a temple built at Umma in the reign of Ur-Nammu's third successor Shu-sin took at least seven years to complete. The building was constructed with

nearly nine million large and seventeen million small bricks. We know from a tablet that a brickmaker could make eighty bricks a day, so simple arithmetic shows that the bricks for this temple would have taken a thousand Igigi workers for nearly a year to manufacture. At the dawn of a new era, a new age -- a new "Babylon" -- secret knowledge and wisdom of the greatest empire in history, originally guarded and hidden by the most progressive ruler of western civilization -- Nebuchadnezzar II -- now stands open to all, freshly recovered and translated from the deserts of Middle East... unearthed beyond time and space from ancient Mesopotamia! The tablet collection known as the "Sajaha Series" first relayed to the public in 1991 is in the German language: "Das Buch der Sajaha: Neunzehn Schriftsatze der Babylonianischer Sehek," would have appeared as "The Book of Sajaha – Nineteen Writings of the Babylonian Seer"—had it ever been produced in English. More recently Max Cold Champion & Aldo Espinosa released another edition in 2009, again in German, titled: "Sajaha: Die Prophezeiungen für ein Neues Zeitalter Babylon, Nebukadnezar und der Dritte Sargon." ["Sajaha: Prophecies of a New Age of Babylon, Nebuchadnezzar and the Third Sargon."] The public release of The Book of Sajaha-the-Seer (Liber S) marks a new phase in the Mardukite work—featuring the prophecies, visions and advisement of a great Babylonian seer, Sajaha: accounts of a future rise of New Babylon from her point of view. Commentary, new translations and the original German transliteration manuscript are included within this concise volume of 'Sumerian Wisdom & Anunnaki Prophecies: The Book of Sajaha-the-Seer: Babylonian

**Cuneiform Wisdom Tablet Series of King Nebuchadnezzar II & Prophetic Visions for a New Babylon Rising'** edited by Joshua Free. As you reflect upon the lines of this tablet series, the prophecies and visions most surely conjure vivid imagery to mind, not to mention what the intended audience for them would have been thinking—for they were once the private possession of the Babylonian king of Sajah's time, King Nebuchadnezzar II, a supporter of a progressive fruitful and benevolent pro-Mardukite era of Babylonian Renaissance for nearly half of a century! **EDITION NOTE:** Mardukite-English translation developed by the Mardukite Chamberlains as an unpublished companion to Book of Marduk by Nabu as derived from the German text. "This splendid work of scholarship . . . sums up with economy and power all that the written record so far deciphered has to tell about the ancient and complementary civilizations of Babylon and Assyria."—Edward B. Garside, New York Times Book Review Ancient Mesopotamia—the area now called Iraq—has received less attention than ancient Egypt and other long-extinct and more spectacular civilizations. But numerous small clay tablets buried in the desert soil for thousands of years make it possible for us to know more about the people of ancient Mesopotamia than any other land in the early Near East. Professor Oppenheim, who studied these tablets for more than thirty years, used his intimate knowledge of long-dead languages to put together a distinctively personal picture of the Mesopotamians of some three thousand years ago. Following Oppenheim's death, Erica Reiner used the author's outline to complete the revisions he had begun. "To any serious student of Mesopotamian civilization, this is one of the most valuable books ever

written."—Leonard Cottrell, Book Week "Leo Oppenheim has made a bold, brave, pioneering attempt to present a synthesis of the vast mass of philological and archaeological data that have accumulated over the past hundred years in the field of Assyriological research."—Samuel Noah Kramer, Archaeology A. Leo Oppenheim, one of the most distinguished Assyriologists of our time, was editor in charge of the Assyrian Dictionary of the Oriental Institute and John A. Wilson Professor of Oriental Studies at the University of Chicago. Here is a complete translation of all the published cuneiform tablets of the various Babylonian creation stories, of both the Semitic Babylonian and the Sumerian material. Each creation account is preceded by a brief introduction dealing with the age and provenance of the tablets, the aim and purpose of the story, etc. Also included is a translation and discussion of two Babylonian creation versions written in Greek. The final chapter presents a detailed examination of the Babylonian creation accounts in their relation to our Old Testament literature. "The Babylonian Legends of the Creation" presents the texts of the first Babylonian clay tablets presented to the scientific world in 1848. Many of the stories reflected the mythical history of creation. The authors of this book were among the pioneers of archaeology, who made the earliest attempts to see and analyze these artifacts. The presented here book covers the history of discoveries of the tablets, their contents, and comments regarding Babylonian mythology. When Adam and Eve ate from the Tree of Knowledge, they became like God and the angels, knowing good and evil. For

that reason, they were cast out of the garden in Eden and barred from having access to the Tree of Life, which would have provided them immortality. What would have happened to them if they had obeyed God and initially eaten from the Tree of Life? Obviously, they would no longer have been subject to death. Therefore, they would have been free from the curse surrounding the Tree of the Knowledge of Good and Evil. In fact, rather than being a deadly curse, it would have then resulted in a blessing. Jesus of Nazareth reopened the way to the Tree of Life for all mankind, but what happened to the evil tree in God's garden? ""Behold, I set before you this day a blessing and a curse; a blessing, if ye obey the commandments of the LORD your God, which I command you this day: and a curse, if ye will not obey the commandments of the LORD your God..." --Deuteronomy 11:26-28

**Blood Prints of the Gods** is an enlightening book of outstanding simplicity. Learn today from historical findings and esoteric doctrines how aliens created the first human Neanderthal, a creature the ancient Sumerians called "Adamu". Learn how this Neanderthal alien bloodline became the sacred blood line of the ancient Sumerians; a bloodline that is worshiped and adored in secret societies to this day. Find out how this same bloodline has been ruling the world, since the days of ancient Babylon and the Egyptian pharaohs. See how the bloodline reigned over Alexander's Greece and how it reigns today through the royal crown of the British Monarchy. The author takes the reader on a journey through history, beginning hundreds of thousands of years ago and carrying you to the present, where the bloodline conspires to control

the entire planet. *Blood and Power: Brill's Companion to Insurgency and Terrorism in the Ancient Mediterranean* provides readers with current research on these forms of conflict and response in the Ancient Near East, Persia, Greece, Egypt, and Rome from the second millennium BCE to the third century CE. This anthology brought together the most important historical, legal, mythological, liturgical, and secular texts of the ancient Near East, with the purpose of providing a rich contextual base for understanding the people, cultures, and literature of the Old Testament. A scholar of religious thought and biblical archaeology, James Pritchard recruited the foremost linguists, historians, and archaeologists to select and translate the texts. The goal, in his words, was "a better understanding of the likenesses and differences which existed between Israel and the surrounding cultures." Before the publication of these volumes, students of the Old Testament found themselves having to search out scattered books and journals in various languages. This anthology brought these invaluable documents together, in one place and in one language, thereby expanding the meaning and significance of the Bible for generations of students and readers. As one reviewer put it, "This great volume is one of the most notable to have appeared in the field of Old Testament scholarship this century." Princeton published a follow-up companion volume, *The Ancient Near East in Pictures Relating to the Old Testament* (1954), and later a one-volume abridgment of the two, *The Ancient Near East: An Anthology of Texts and Pictures* (1958). The continued popularity of

this work in its various forms demonstrates that anthologies have a very important role to play in education--and in the mission of a university press. ATTENTION: This is an earlier edition. In The Lost Book of Enki we now view this saga from the perspective of Lord Enki, an Anunnaki leader revered in antiquity as a god, who tells the story of these extraterrestrials' arrival on Earth from the planet Nibiru. In his previous works Sitchin compiled the complete story of the Anunnaki's impact on human civilization from fragments scattered throughout Sumerian, Akkadian, Babylonian, Assyrian, Hittite, Egyptian, Canaanite, and Hebrew sources. Missing from these accounts, however, was the perspective of the Anunnaki themselves. What was life like on their own planet? What motives propelled them to settle on Earth--and what drove them from their new home? Convinced of the existence of a lost book that held the answers to these questions, the author began his search for evidence. Through exhaustive research of primary sources, he has here re-created tales as the

memoirs of Enki, the leader of these first “astronauts.” What takes shape is the story of a world of mounting tensions, deep rivalries, and sophisticated scientific knowledge that is only today being confirmed. An epic tale of gods and men unfolds, challenging every assumption we hold about our past and our future.
