***Each culture has its own myths and legends, but only one is shared, and it is feared by all. With Age of Myth, Age of Swords, and Age of War, fantasy master Michael J. Sullivan riveted readers with a tale of unlikely heroes locked in a desperate battle to save mankind. After years of warfare, humanity has gained the upper hand and has pushed the Fhrey to the edge of their homeland, but no farther. Now***

***comes the pivotal moment. Persephone's plan to use the stalemate to seek peace is destroyed by an unexpected betrayal that threatens to hand victory to the Fhrey and leaves a dear friend in peril. Humanity's only hope lies in the legend of a witch, a forgotten song, and a simple garden door. This collection of stories is based upon tales told by the Buddha to his monks 2500 years ago. Isabel Wyatt's enchanting retelling conjures up a rich world of eastern legend, ruled by courtly kings and wise men, and populated by brave princes, faithful elephants and cunning monkeys. The stories tell of great adventures and heroes, of danger and courage, and most importantly of how wisdom and thoughtfulness always triumph over selfishness and greed. This anthology was compiled with children around the age of eight in mind -- children who are embarking on more and more adventures in their own lives, and themselves learning to become clever and brave. "Legend doesn't merely survive the hype, it deserves it." From the New York Times bestselling author of The Young Elites What was once the western United States is now home to the Republic, a nation perpetually at war with its neighbors. Born into an elite family in one of the Republic's wealthiest districts, fifteen-year-old June is a prodigy being groomed for success in the Republic's highest military circles. ***the country's most wanted criminal. But his motives may not be as malicious as they seem. From very different worlds, June and Day have no reason to cross paths - until the day June's brother, Metias, is murdered and Day becomes the prime suspect. Caught in the ultimate game of cat and mouse, Day is in a race for his family's survival, while June seeks to avenge Metias's death. But in a shocking turn of events, the two uncover the truth of what has really brought them together, and the sinister lengths their country will go to keep its secrets. Full of nonstop action, suspense, and romance, this novel is sure to move readers as much as it thrills. One of the most gifted athletes in the world, Babe Didrikson Zaharias dominated track and field, winning two Olympic gold medals in 1932. She went on to compete in baseball, bowling, basketball, tennis, and particularly in golf. The American public was smitten with her wit, frankness, and "unladylike" bravado. She became an American legend. The legend was challenged, however, by members of the press and society who insinuated that her femininity, even her femaleness, were suspect--that there was something different, even wrong, about this preternaturally gifted woman in a male-dominated world. She had ably used her androgyny and her powerful athleticism to promote herself, but she soon felt compelled to craft herself into a more marketable female role model--particularly in connection with the "proper" world of golf. To increase her opportunities for competitive play in this field, she became a co-founder and officer of the Ladies Professional Golf Association (LPGA). As a major step in her makeover, Babe already had married George Zaharias, a wrestling promoter who was a vital partner in her constant efforts at self-promotion. But by 1950 Babe was deeply involved with a young golfer, Betty Dodd, whose for-the-record discussion of their remarkable love is included in Babe. Stricken with cancer in her prime, Babe went on to***

***courageously and publicly fight the disease. Babe is a comprehensive, in-depth biography of a woman who was a great athlete at a time when it was extremely difficult for a woman to be her own person. Through interviews with members of Babe's family, her golf peers, and medical personnel, Cayleff caringly reveals the life and probes the legend of this unusual American hero. She unflinchingly examines the athletic community, the media, and the society that both loved and judged Babe, whose story embodies the struggle of all women who dare to transcend stereotypes and claim their own definitions and unique identities. Babe allows her to be all the hero--and all the human being--she was meant to be. This is an introduction to the myths and legends of the peoples who inhabited the north-western fringes of Europe - from Britain and the Isle of Man of Gaul and Brittany. It looks at the nature of Celtic religion, with its rituals of sun and moon worship, and at the druids who served society as judges, diviners and philosophers. It examines the many Celtic deities who were linked with animals and such natural phenomena as rivers and caves, or who later became associated with local Christian saints. And it explores in detail the rich variety of Celtic myths: from early legends of King Arthur to the stories of the Welsh Mabinogi. Drawing on recent historical and archaeological research, as well as literary and oral sources, this book explores and explains a fertile tradition of myth-making that has captured the imagination of countless generations. In an effort to save a dear friend, Timmi Tobbson and his cohorts follow the clues concealed within a centuries-old family legacy and unravel the legend of a long-lost pirate ship, buried somewhere deep beneath the city streets, but their search awakens a mystical dark power. ***adventures — and readers won't want to miss it! A young baby, SeaWalker, is lost at sea in the Bermuda Triangle where he is rescued by a family of dolphins. Miraculously, they take him to the deepest part of the ocean where he metamorphizes into a new species of sea creature who is able to communicate telepathically with all the creatures of the sea, from the largest blue whales to the smallest crustaceans. Born to bridge the two worlds above and below the ocean, SeaWalker not only survives the harsh ocean environment, but soon becomes the leader of his dolphin tribe. His epic journey not only takes him to the deepest depths of the sea but leads to incredible encounters with space aliens' sinister plans for all life on earth. Life works of Master Bladesmith William F. Moran Jr. Through regressive hypnosis a lost legend of the history of mankind has been retrieved from the recesses of time. Did the American Indians descend from the inhabitants of an alien spacecraft that crashed in the Alaska-Canada region thousands of years ago? Starcrash indicates that aliens continued to come to Earth, some intentionally and by accident, throughout our history. In order to adjust to harsh conditions they were forced to interbreed with the local aborigines. This was the only way to insure the survival of their race. Does their blood still flow in the veins of certain American Indian tribes? New York Times bestselling author Michael Korda's fresh, contemporary single volume historical biography of General Robert E. Lee—perhaps the most famous and least understood legend in American history and one of our most admired heroes. Michael Korda, author of Ulysses S. Grant and the bestsellers Ike and Hero, paints a vivid and admiring portrait of Lee as a brilliant general, a devoted family man, and principled gentleman who disliked slavery and disagreed with secession, yet who refused command of the Union Army in 1861 because he could not "draw his sword" against his beloved Virginia. Well-rounded and***

*realistic, Clouds of Glory analyzes Lee's command during the Civil War and explores his responsibility for the fatal stalemate at Antietam, his defeat at Gettysburg (as well the many troubling controversies still surrounding it) and ultimately, his failed strategy for winning the war. As Korda shows, Lee's dignity, courage, leadership, and modesty made him a hero on both sides of the Mason-Dixon Line and a revered American icon who is recognized today as the nation's preeminent military leader. Clouds of Glory features dozens of stunning illustrations, some never before seen, including twelve pages of color, twenty-four pages of black-and-white, and nearly fifty in-text battle maps. A morally profound chamber piece, A Legend of the Future is a critique of morality. It takes place inside a spaceship after a crash takes place during a failed mission to Titan, one of the Saturn moons. The journey home forces the crew to face its innermost fears while coexisting with each other in a state of desperation. This mesmerizing novel, recalling Arthur C. Clarke's 2001: Space Odyssey, is a roman a clef about the intense pressures—economic, ideological, psychological—inside Socialist Cuba. His trilogy of Spiral, A Legend of the Future, and Year 200 is still the best of Cuban science fiction.... —Yoss "One of the best science fiction writers in Cuba—and, until [his death], one of the best Cuban story tellers alive.... "The most elevated figure in Cuban science fiction." —Axxón  
Agustín de Rojas (1949-2011) is the patron saint of Cuban science fiction. A professor of the history of theater at the *Escuela de Instructores de Arte* in Villa Clara, he is the author of a canonical trilogy of novels: *Espiral* (*Spiral*, 1982), for which he was awarded the David Prize; *La leyenda del futuro* (*The Legend of the Future*, 1985) and *El año 200* (*The Year 200*, 1990), all scheduled for publication in English translation by Restless Books. While influenced by Ray Bradbury and a translator of Isaac Asimov into Spanish, he aligned himself with the Soviet line of socialist realism defined by the brothers Arkady and Boris Strugatsky as well as by Ivan Antonovich Yefremov, author of *The Andromeda Nebula*, made into a movie directed by Yevgeni Sherstobitov and admired by de Rojas. In Cuban literature, he is said to have begun writing after reading Miguel Collazo's *El viaje* (*The Journey*). After the fall of the Soviet Union, de Rojas stopped writing science fiction and embraced other themes such as Christianity, about which he wrote a novel called *El publican* (1997), about the disciples of Jesus Christ, that was awarded the Dulce María Loynaz Prize. He spent his last years persuaded—and persuading others—that Fidel Castro did not exist. Nick Caistor is a British journalist, non-fiction author, and translator of Spanish and Portuguese literature. He has translated Cesar Aira, Paulo Coelho, Eduardo Mendoza, Juan Marsé, and Manuel Vázquez Montalban, and he has twice won the Valle-Inclán Prize for translation. Excerpt from Rob of the Bowl: A Legend of St. Inigoe's; A Story of the Early Days of Maryland It is now more than one hundred and forty-four years since the ancient capital of Maryland was shorn of its honors, by the removal of the public offices, and, along with them, the public functionaries, to Annapolis. The date of this removal, I think, is recorded as of the year of grace sixteen hundred and ninety four. The port of St. Mary's, up to that epoch, from the first settlement of the province, comprehending rather more than three score years, had been the seat of the Lord Proprietary's government. This little city had grown up in hard-favored times, which had their due effect in leaving upon it the visible tokens of a stunted vegetation: it waxed gnarled and crooked, as it perked itself upward through the thorny troubles of its existence, and might be likened to the black jack, which yet retains a foothold in this region, -a scrubby, tough and hardy mignon of the forest, whose elder day of crabb'd luxuriance affords a sour comment' upon the nurture of its youth. **The cult classic from the godfather of Cuban science fiction, Agustín de Rojas's *The Year 200* is both a visionary sci-fi masterwork and a bold political parable about the perils of state power. Centuries have passed since the Communist Federation defeated the capitalist Empire, but humanity is still divided. A vast artificial-intelligence network, a psychiatric bureaucracy, and a tiny egalitarian council oversee civil affairs and quash "abnormal" attitudes such as romantic love. Disillusioned civilians renounce the new society and either forego technology to live as "primitives" or enhance their brains with cybernetic implants to become "cybos." When the Empire returns and takes over the minds of unsuspecting citizens in a scenario that terrifyingly recalls *Invasion of the Body Snatchers*, the world's fate falls into the hands of two brave women. Originally published in 1990, just after the fall of the Berlin Wall and before the onset of Cuba's devastating Special Period, Agustín de Rojas's magnum opus brings contemporary trajectories to their logical extremes and boldly asks, "What does 'the greatest good for the greatest number' really mean?"**

Meanwhile, outside the city's granite walls, an industrious tribe of exiles known as the Bane forages for sustenance in the wilds of Davon Wood. At every turn, the lives of Broken's defenders and its would-be destroyers intertwine: Sixt Arnem, the widely respected and honorable head of the kingdom's powerful army, grapples with his conscience and newfound responsibilities amid rumors of impending war. Lord Basterkin, master of the Merchants' Council, struggles to maintain the magnificence of his kingdom even as he pursues vainglorious dreams of power.
